NEW HAMPSHIRE LIBRARY STATISTICS
1985 and 1986

New Hampshire State Library

NEW HAMPSHIRE

PUBLIC LIBRARY STATISTICS

1985

PUBLIC LIBRARY STATISTICS

The figures included in this publication were taken from the public library annual reports, returned to the New Hampshire State Library during 1986. Those libraries whose reports were not received, or not completed, are indicated by blanks in the finished report.

The population figures are those provided by the new State Office of Planning, and may not agree with local figures.

Hours, as listed, are those which the library is open to the public.

Staff FTE (full-time equivalent) are figured by dividing the total paid staff hours worked per week by 40.

Volumes refers to the book collection; **Serials** include newspapers and magazines; and **non-book** covers recordings, cassette tapes, video cassettes, computer programs, framed prints, etc.

The **town appropriation** refers to the amount of funds allocated by the municipality for support of the library; **other funds** includes all fines, fees, trust fund income and money from any other source used by the library.

The circulation figures are compiled from **adult** and **juvenile** circulation, and in most instances includes volumes, serials and non-book in the total.

Inter-library loan means those materials **loaned** to other libraries; or, **borrowed** from other libraries.

Durham, although serviced by the Dimond Library of the University, is included with the public libraries.

Resident Population, 1985	998,000
Total Circulation, all public libraries, 1985	5,658,876
Total Expenditures, all public libraries, 1985	$10,923,230

	1985	1984
Per Capita Circulation	5.67	
Per Capita Expenditure	$10.94

NEW HAMPSHIRE

PUBLIC LIBRARY STATISTICS

1986

PUBLIC LIBRARY STATISTICS, 1986

The figures included in this publication were taken from the public library annual reports, returned to the New Hampshire State Library during 1987. Those libraries whose reports were not received, or not completed, are indicated by blanks in the finished report.

The population figures are those provided by the new State Office of Planning, and may not agree with local figures.

Hours, as listed, are those which the library is open to the public.

Staff FTE (full-time equivalent) is figured by dividing the total paid staff hours worked per week by 40.

Volumes refers to the book collection; **Serials** include newspapers and magazines; and **non-book** covers recordings, cassette tapes, video cassettes, computer programs, framed prints, etc.

The **town appropriation** refers to the amount of funds allocated by the municipality for support of the library; **other funds** includes all fines, fees, trust fund income and money from any other source used by the library.

The circulation figures are compiled from **adult** and **juvenile** circulation, and in most instances includes volumes, serials and non-book in the total.

Inter-library loan means those materials **loaned** to other libraries; or, **borrowed** from other libraries.

Durham, although serviced by the Dimond Library of the University, is included with the public libraries.

Resident Population, 1986	1,009,900
Total Circulation, all public libraries, 1986	5,479,617
Total Expenditures, all public libraries, 1986	$11,853,091

	1986	1985
Per Capita Circulation	5.42	5.67
Per Capita Expenditure	$11.73	$10.94

NEW HAMPSHIRE LIBRARY STATISTICS

1987

New Hampshire State Library

NEW HAMPSHIRE

PUBLIC LIBRARY STATISTICS

1987

PUBLIC LIBRARY STATISTICS, 1987

The figures included in this publication were taken from the public library annual reports, returned to the New Hampshire State Library during 1988. Those libraries whose reports were not received, or not completed, are indicated by blanks in the finished report. It should be noted that these statistics have been produced from information submitted to the State Library during the 1987 reporting period.

The population figures are those provided by the new State Office of Planning, and may not agree with local figures. With the exception of the alphabetical listing, libraries are given by population, from largest to least.

Hours, as listed, are those which the library is open to the public.

Staff FTE (full-time equivalent) is figured by dividing the total paid staff hours worked per week by 40.

Volumes refers to the book collection; **Serials** include newspapers and magazines; and **non-book** covers recordings, cassette tapes, video cassettes, computer programs, framed prints, etc.

The **town appropriation** refers to the amount of funds allocated by the municipality for support of the library; **other funds** includes all fines, fees, trust fund income and money from any other source used by the library.

The circulation figures are compiled from **adult** and **juvenile** circulation, and in most instances includes volumes, serials and non-book in the total.

Inter-library loan means those materials **loaned** to other libraries; or, **borrowed** from other libraries.

Durham, although serviced by the Dimond Library of the University, is included with the public libraries.

Resident Population, 1987	1,057,000
Total Circulation, all public libraries, 1987	5,980,301
Total Expenditures, all public libraries, 1987	$16,730,584

	1987	1986
Per Capita Circulation	5.92	5.42
Per Capita Expenditure	$16.56	$11.73

NEW HAMPSHIRE

PUBLIC LIBRARY STATISTICS

1988

PUBLIC LIBRARY STATISTICS, 1988

The figures included in this publication were taker from the public library annual reports, returned to the New Hampshire State Library during 1989. Those libraries whose reports were not received are so indicated in the alphabetical listing. It should be noted that these statistics have been produced from information submitted to the State Library during the 1988 reporting period.

The population figures are those provided by the Office of State Planning, and may not agree with local figures. With the exception of the alphabetical listing, libraries are given in population groupings as determined by the Public Library Standards. Within each grouping the libraries are listed alphabetically.

Hours, as listed, are those which the library is open to the public.

Staff FTE (full-time equivalent) is figured by dividing the total paid staff hours worked per week by 40.

Volumes refers to the book collection; **serials** include newspapers and magazines.

The **town appropriation** refers to the amount of funds allocated by the municipality for the support of the library; **trust funds** are those funds coming from library trusts; **other funds** includes all fines, fees, gifts, direct state aid and money from any other source used by the library.

The circulation figures are compiled from **adult, juvenile,** and **other** circulation, and includes volumes, serials, and non-book in the total.

Inter-library loan means those materials **loaned** to other libraries; or, **borrowed** from other libraries.

The Dimond Library, at the University of New Hampshire, also serves as the Durham Town Library, and the hours open are those for the University.

TOTAL AND PER CAPITA FIGURES FOR 1987 AND 1988.

Resident Population, 1988	1,057,000
Total circulation, all public libraries, 1988	6,321,962
Total expenditures, all public libraries, 1988	$14,681,236.

	1988	1987
Per capita circulation	5.98	5.92
Per capita expenditure	$13.89	$11.64*

*Corrected from 1987 published statistics.

Included in the capital outlay for public libraries, 1988, are also the amounts **expended** in LSCA Title II grants. These grants may have been awarded in a previous year, and not completely paid out to the library until 1988; Title II may be carried over into another fiscal year. Libraries receiving federal funds in 1988 were:

South Hampton Public Library. This project entailed the complete remodeling of existing library as an annex to the Town Hall. It doubles the size of the library, and provides handicapped accessibility. $8,810.00

Whitefield Public Library. The project expanded library facilities by renovating the basement into a reading and study area. The side entrance was altered to meet handicapped accessibility requirements. $5,400.00

Bridge Memorial Library, Walpole. This project provided for a 650 square foot addition to the library; housing reference materials and books. It is used primarily for student research projects. It also included a ramp for handicapped accessibility. $21,500.00

Goffstown Public Library. In Goffstown the project included alteration of an existing downstairs entrance and the construction of a ramp to comply with handicapped accessibility requirements; renovation of the bathroom for accessibility; conversion of unused space into a staff room and processing area; and alterations to the existing furnace room to eliminate dissipation of heat. $2,755.97

Holderness Free Library. This project entailed the addition of 441 square feet to the existing building. This included an expanded adult reading area, and handicapped access. $1,700.00

Richards Free Library, Newport. An addition of 3,800 square feet on the existing building provided an enlarged circulation area, a rare book room, an audio-visual room, additional stack area, study stations, and handicapped accessible bathrooms and a entry way. $16,779.84.

Orford Social Library. This project involved the addition of 720 square feet to the existing library to include expanded book and reading space and room for historical materials; a finished basement with stack space, space for visual arts and an utility room; a second floor storage area; and a handicapped accessible entrance and bathroom. $32,850.00.

Sanbornton Public Library. This expansion enlarged the library by 400 square feet, increasing the children's area by more than 50% and included new space for reference, an adult reading room, historical materials and a staff work room. It also included handicapped access to the library, and provisions were included for computer equipment. $9,049.25.

Manchester City Library. Through this project an existing room was renovated to accomodate the computer hardware required to support the greater Manchester Integrated Cooperative Library System. $1,500.00

Hancock Town Library. This expansion project involved an addition to the library that includes an enlarged reading area for adults and young adults, a chairlift to provide easy internal access from the new to the old section of the building, a walkway with a gentle grade to provide easy access to the main entrance, and a reserved parking space for handicapped usage. $3,994.93

Wilton Public/Gregg Free Library. This project enabled the library to renovate its building so that access to the handicapped was provided through a bridge at the back of the library. Energy conservation was addressed by a new doorway and vestibule for this entrance. $17,893.14.

Laconia Public Library. The library was provided with access for the handicapped through this project. Two parking spaces and a ramp were built next to the children's entrance, and a folding chairlift provides access to the main floor, and to the lower level meeting room and a handicapped accessible bathroom. $10,495.00.

Academic Libraries, 1988, collections.
